CALLAN MARINE, LTD.

CALLAN MARINE, LTD
INTRODUCES THE NEW C/S "TEXAS CUTTER" DREDGE

Calla Marine, LTD. introduces its state-of-the-art Dredge the C/S "Texas Cutter" to its Fleet. The powerful Cutter Suction Dredge is capable of moving huge volumes of dredge materials in short periods of time. This new addition is ideal for medium to large dredging projects such as navigation channel maintenance and port development and maintenance.

Dimensions:

Length: 145ft (44.2m)
Beam: 40ft (12.2m)
Depth: 7ft (2.1m)
Draft: 4ft (1.2m)

Operating Parameters:

Dig Depth Range: 5ft-56ft (1.5-17.1m)
Suction Diameter: 14in (355.6mm)
Discharge Diameter: 12in (304.8mm)

Machinery & Power Data:

Fuel Capacity: 11,100gal (42,018l)
Cutter Force: 11,285lbs (5,119kg)
Cutter Hydraulics: 350hp (261kW)
Total Installed Power: 1,500hp (1,119kW)
