

#### Flow Down Clause for Federal Contracts:

The clauses contained in the current issue of the Federal Acquisition Regulations (FAR) and supplements thereto, which the U.S. Federal Government makes mandatory for a contractor under a U.S. Federal Government contract to include in all of its lower-tier subcontracts thereunder, shall apply to this Purchase Order. The following are the typical Federal Contract clauses and, where applicable by their terms, are hereby incorporated by reference with the same force and effect as if set forth in full text. Clauses and references below are to the Federal Acquisition Regulations (FAR) available at <https://www.acquisition.gov/browsefar> by reference and the Defense Federal Acquisition Regulations (DFAR) available at <https://www.acq.osd.mil/dpap/dars/dfarspgi/current/> by reference. Certain clauses may not be applicable due to the type of purchase order issued, dollar thresholds under the requirements of the FAR, DFARS and/or the Mandatory Flow Down requirements of a particular prime contract. Clauses that are not applicable are deemed self-deleting. It is the Supplier's obligation to contact the LSU Office of Sponsored Programs regarding any confusion, ambiguity, or questions regarding applicability of the clauses. Supplier agrees to flow down all applicable clauses to lower-tier entities.
